

# Twitter Posts

Get students to produce a set of twitter posts within the character limit. This should challenge them to demonstrate what they have learnt.

Students are to write a set of twitter posts with a 140 character limit. These posts are to communicate what they have been learning about in relation to their task. Students can maximise the content of their twitter posts by using the GAP tasks.

If using GAP you will need to complete the GAP worksheet to outline the variation in challenge and support available for the task-

- Green- Supportive version of the task
- Amber- The original version of the main task
- Pink- Challenging version of the task
